## RFF-100

---

### Application

Multifunctional hydrophilic polymer for finishing of polyester substrates.

### Chemistry for Performance

- Imparts hydrophilic properties to polyester substrates
- Minimizes static build up
- Offers excellent surface smoothness and softness
- No adverse effect on strength and tonal variation
- Good thermo-migration and soil release properties
- Wash Stable

### Physical Properties

Product	Appearance	pH	Packing	Self Life
Non-Ionic Polymers	Creamish Semi Solid	6 – 6.5	60 Kg	6 Months stored under control condition

### Method of Application

Method of Application : Padding  
Dosage for Exhaust : 1 to 2 %  
pH of application : 5.5 to 7.0

**Disclaimer** The literature indicates general information guidelines on our product for their use. The user should check the suitability of the product for their use. RAN/RSA makes no warranty of any kind expressed or implied. Industrial safety practice is to be followed.
